The following is an examiner's statement of reasons for allowance:

A method of converting an explicit definition of a geometric object to a level set, the method comprising: casting rays in plural directions to obtain plural distance votes associated with each voxel; assigning a magnitude value to each voxel by selecting the distance vote associated with that voxel which is lowest in magnitude; determining if each voxel is either inside or outside of the geometric object; and assigning a sign value to each voxel, to indicate the voxel being either inside or outside of the geometric object..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
